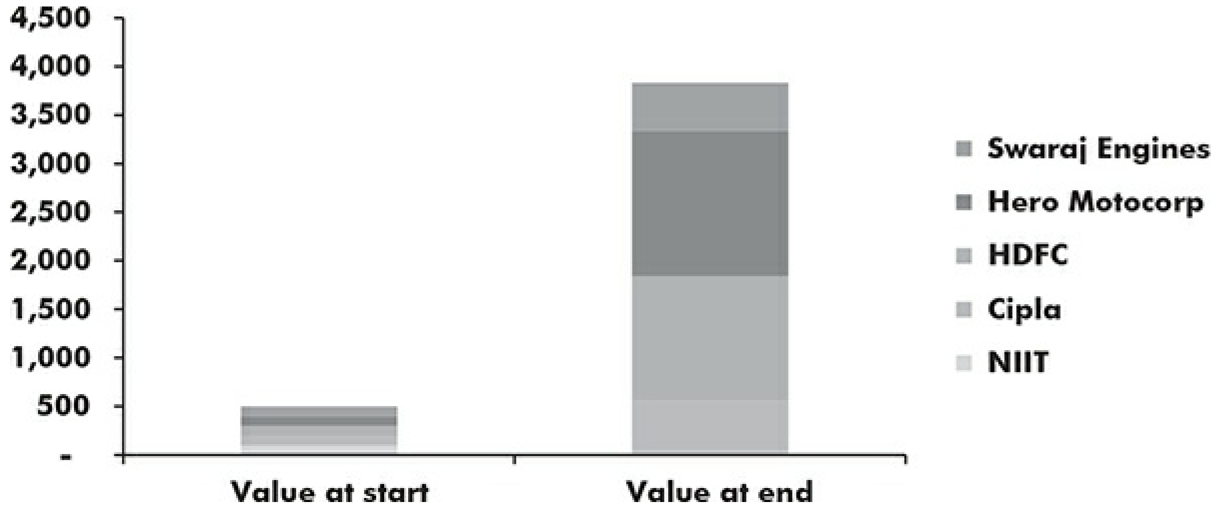
Exhibit 92: Hero and HDFC rose exponentially whilst NIIT collapsed in CCP 2000



Source: Bloomberg, Ambit Capital
Note: Value at start denotes an equal allocation of Rs 100 in each stock at the start of the period. Value at end is the value of each stock at the end of the period. Thus, for this period, the value of the portfolio rose from Rs 500 at the start to Rs 3831 at the end. Total Shareholder Return (TSR) and Sensex TSR include dividends received and reinvested.

Complete portfolio (Period 2): 2001–11 (11.7 per cent alpha relative to the Sensex; 32.2 per cent per annum absolute returns)

All-cap portfolio stocks: Cipla, Hero MotoCorp, Apollo Hospitals, Roofit Inds, HDFC and LIC Housing Finance

Large-cap portfolio stocks: Cipla, Hero MotoCorp and HDFC

Both versions of the CCP performed well during the second iteration as well, beating the Sensex. The all-cap and large-cap CCP gave an impressive alpha of 11.7 per cent and 7.8 per cent respectively for this iteration. The portfolio was remarkably steady compared to the Sensex's maximum drawdown, delivering an excess return of 0.61–0.59 times (see Exhibit 93).
