Modified RMD Rule (Spending Rate = 1.58 × RMD %)	5.10%	90th	$10,090	$12,810	$11,900	$59,810	133%	221%	-4%
		50th	$5,550	$5,730	$3,950	$20,610	-23%	6%	-6%
		10th	$3,020	$2,430	$1,440	$7,480	-72%	-61%	-10%

My Retirement Dashboard (www.retirementresearcher.com/dashboard) provides ongoing updates for a few of these strategies as economic conditions change over time. It is worthwhile to check this more up-to-date resource. These three stylized cases for conservative, moderate, and aggressive retirees can provide a better idea about the feasible spending patterns that can be expected with these variable spending strategies. It then becomes up to the retiree to decide on the best course of action for his or her personalized case.
