Debt Perception: *Debt is evil. It must be religiously attacked, even if that means working overtime for life.*

Time Perception: *My time is abundant and I will gladly trade my time for more dollars. The more hours I can work, the more I can pay off my debt and save money for retirement at 65.*

Education Perception: *Education is important because it helps me earn a bigger salary.*

Money Perception: *Money is scarce and every dime and dollar must be accounted for, budgeted, and perilously saved. If I want to retire by 65 with millions, I have to ensure I don't squander my hard-earned money.*

Primary Income Source: *My job is my sole source of income.*

Primary Wealth Accelerator: *Compound interest is powerful because $10 invested today will be worth $300,000 in 50 years. Oh yes, and don't forget about mutual funds, home appreciation, and my employer's 401K.*

Wealth Perception: *Work, save, and invest. Work, save, and invest. Repeat for 40 years until retirement age . . . 65 years old or, if I'm lucky and the markets return 12% yearly, maybe 55!*

Wealth Equation: *Wealth = job + market investments.*

Destination: *A comfortable retirement in my twilight years.*

Responsibility & Control: *It's my responsibility to provide for my family although for that plan to work I have to rely on others, including my employer, my financial adviser, the government, and a good economy.*

Life Perception: *Settle for less. Give up on big dreams. Save, live frugal, don't take unnecessary risks, and one day I will retire with millions.*
