

financial intelligence. His children will be able to afford the education that they want and he will then use the underlying asset, wrapped in his C Corporation, to pay for his retirement. As a result of this successful investment strategy he will be able to retire early.

Thank you for reading this book. I hope it has provided some insights into utilizing the power of money to work for you. Today, we need greater financial intelligence to simply survive. The idea that it takes money to make money is the thinking of financially unsophisticated people. It does not mean that they're not intelligent. They have simply not learned the science of making money.

Money is only an idea. If you want more money simply change your thinking. Every self-made person started small with an idea, then turned it into something big. The same applies with investing. It takes only a few dollars to start and grow it into something big. I meet so many people who spend their lives chasing the big deal, or trying to mass a lot of money to get into a big deal, but to me that is foolish. Too often I have seen unsophisticated investors put their large nest egg into one deal and lose most of it rapidly. They may have been good workers but they were not good investors.

Education and wisdom about money are important. Start early. Buy a book. Go to a seminar. Practice. Start small. I turned \$5,000 cash into a \$1 million dollar asset producing \$5,000 a month cash flow in less than six years. But I started learning as a kid. I encourage you to learn because it's not that hard. In fact, it's kind of easy once you get the hang of it.

I think I have made my message clear. It's what is in your head that determines what is in your hands. Money is only an idea. There is a great book called Think and Grow Rich. The title is not Work Hard and Grow Rich. Learn to have money work hard for you and your life will be easier and happier. Today, don't play it safe, play it smart.

Take Action!

Many of you were given two great gifts: your mind and your time. It is up to you to do what you please with both. With each dollar bill that enters your hand, you and only you have the power to determine your destiny. Spend it foolishly, you choose to be poor. Spend it on liabilities, you join the middle class. Invest it in your mind and learn how to acquire assets and you will be choosing wealth as your goal and your future. The choice is yours and only yours. Every day with every dollar, you decide to be rich, poor or middle class.

Choose to share this knowledge with your children, and you choose to prepare them for the world that awaits. No one else will.

You and your children's future will be determined by choices you
