

\$1,000. Then she took one of my courses and learned all about the art of leverage. I gave her \$2,000, she spent \$10,000! I tried to explain, “No, honey, leverage means we’re the ones who are supposed to *get* the ten thousand dollars, not spend it.” Somehow it just wasn’t sinking in.

The only thing we ever fought about was money. It almost cost us our marriage. What we didn’t know at the time was that the meanings each of us attributed to money were radically different. To my wife, money meant immediate *pleasure* (as in enjoying her ice cream). I, on the other hand, grew up with the belief that money was meant to be
