

Moreover, judging the M. K. & T. issues on their individual merits, we regard the prior Lien Bonds as well-secured high yielding investments; and the Adjustment Bonds, Preferred Stock and Common Stock as affording attractive speculative opportunities.

The Missouri, Kansas & Texas and the St. Louis-San Francisco operate chiefly in the same states and at many points are in close competition.

Hence the character of traffic of the two systems is fairly similar, except that the 'Frisco carries considerably more coal and lumber and proportionately less oil. The rates per mile for both freight and passenger business are almost identical. M. K. & T. however averages a substantially heavier train load and longer haul.

Item	M. K. & T.	St. Louis-San Francisco
Average revenue train load	442 tons	398 tons
Average haul per revenue ton	248 miles	187 miles

These two advantages no doubt account in good part for the much lower transportation costs of the M. K. & T. in 1921.

Capitalization. The security issues of the two companies will compare as follows:
