

depression has taught the world. During this depression, the world had evidence in abundance that widespread **FEAR** will paralyze the wheels of industry and business. Out of this experience will arise leaders in business and industry who will profit by the example which Gandhi has set for the world, and they will apply to business the same tactics which he has used in building the greatest following known in the history of the world. These leaders will come from the rank and file of the unknown men, who now labor in the steel plants, the coal mines, the automobile factories, and in the small towns and cities of America.

Business is due for a reform, make no mistake about this! The methods of the past, based upon economic combinations of **FORCE** and **FEAR**, will be supplanted by the better principles of **FAITH** and cooperation. Men who labor will receive more than daily wages; they will receive dividends from the business, the same as those who supply the capital for business; but, first they must **GIVE MORE TO THEIR EMPLOYERS**, and stop this bickering and bargaining by force, at the expense of the public. *They must earn the right to dividends!*

Moreover, and this is the most important thing of all—**THEY WILL BE LED BY LEADERS WHO WILL UNDERSTAND AND APPLY THE PRINCIPLES EMPLOYED BY MAHATMA GANDHI.** Only in this way may leaders get from their followers the spirit of **FULL** cooperation which constitutes power in its highest and most enduring form.

This stupendous machine age in which we live, and from which we are just emerging, has taken the soul out of men. Its leaders have driven men as though they were pieces of cold machinery; they were forced to do so by the employees who have bargained, at the expense of all concerned, to *get* and not to *give*. The watchword of the future will be **HUMAN HAPPINESS AND CONTENTMENT**, and when this state of mind shall have been attained, the production will take care of itself, more effectively than anything that has ever been accomplished where men did not, and could not mix **FAITH** and individual interest with their labor.

Because of the need for faith and cooperation in operating business and industry, it will be both interesting and profitable to analyze an event which provides an excellent understanding of the method by which industrialists and business men accumulate great fortunes, by *giving* before they try to *get*.
