

Evaluating Performance.....	105
Trading Price Performance.....	105
Benchmark Price Performance.....	106
VWAP Benchmark.....	106
Participation Weighted Price (PWP) Benchmark.....	108
Relative Performance Measure (RPM).....	109
Pre-Trade Benchmark.....	110
Index Adjusted Performance Metric.....	111
Z-Score Evaluation Metric.....	112
Market Cost Adjusted Z-Score.....	113
Adaptation Tactic.....	114
Comparing Algorithms.....	115
Non-Parametric Tests.....	116
Distribution Analysis.....	123
Experimental Design.....	125
Proper Statistical Tests.....	126
Small Sample Size.....	126
Data Ties.....	126
Proper Categorization.....	127
Balanced Data Sets.....	127
Final Note on Post-Trade Analysis.....	127
CHAPTER 4 Market Impact Models.....	129
Introduction.....	129
Definition.....	129
Example 1: Temporary Market Impact.....	130
Example 2: Permanent Market Impact.....	130
Graphical Illustrations of Market Impact.....	131
Illustration 1—Price Trajectory.....	131
Illustration 2—Supply-Demand Equilibrium.....	132
Illustration 3—Temporary Impact Decay Function.....	135
Example—Temporary Decay Formulation.....	137
Illustration 4—Various Market Impact Price Trajectories.....	138
Developing a Market Impact Model.....	139
Essential Properties of a Market Impact Model.....	140
Derivation of Models.....	142
Almgren & Chriss—Market Impact Model.....	142
Random Walk with Price Drift—Discrete Time Periods.....	143
Random Walk with Market Impact (No price drift).....	144
I-Star Market Impact Model.....	146
