

Image 4.16 – Price Acceptance Result in TCS

The above image shows the result of the price action after it showed price acceptance below the resistance trend line.

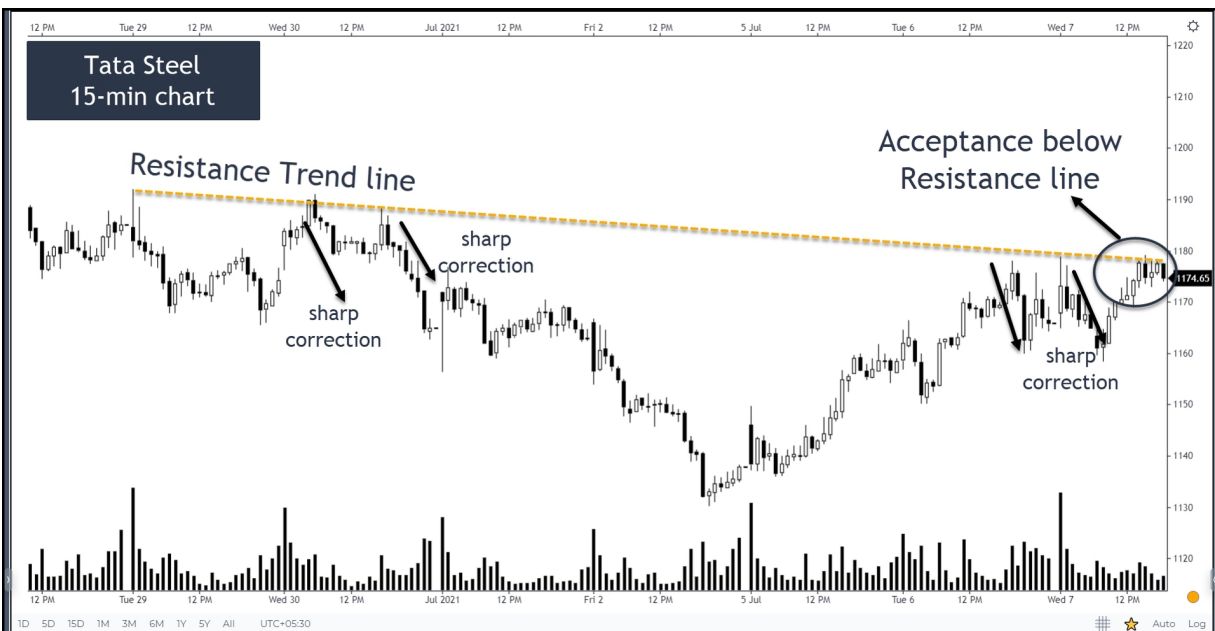

Image 4.17 – Price Acceptance in Tata Steel

The above image is a 15-min chart of Tata Steel, and it is similar to the previous example. There is a clear resistance trend line, and the price took resistance a few times at this trend line. Whenever it took the resistance, the price fell rapidly.
