

programs if you've done volunteer work, have been in the military, or practice medicine in certain communities.

TAKEAWAYS

- ° Student loan debt is consuming a lot of people's lives, in every generation. Knowing you're not alone in your misery should eliminate some stigma and galvanize you to work toward national student loan forgiveness policy and a better future for all students.
- ° There are ways to get forgiveness if your debt is so huge and inconceivable that you feel that you could never afford to pay it all.
- ° If you can afford to pay it off faster, you'll end up paying less overall (because of interest).
