

TAKEAWAYS

- ° Get a job in college! Have some money coming in so you're not just losing cash for four years. And go to your classes! You wouldn't pay for guac and then just shovel dry chips into your mouth. Get the full college experience (education FOREMOST).
- ° Unpaid internships are a bad idea if there's a paid alternative. But if there's no way to get paid experience and the job you want requires more experience than you have, that may be the only way forward. But don't do it if it's going to cause irreparable financial harm.
- ° To make sure we have the best, most diverse workforce, all internships should be paid.
