Minimum Repayment Warning: If you make only the minimum payment each month, you will pay more interest and it will take you longer to pay off your balance. For example:

If you make no additional charges using this card and each month pay...	You will pay off the Closing Balance shown on this statement in about...	And you will end up paying estimated total interest charges of..
Only the minimum payment	5 years, 7 months	\$4,931.52
\$120.93	2 years	\$2,457.34 a saving of \$2,474.18

Having trouble making repayments?

If you are having difficulty making credit card repayments, please contact us on 1300 000 000. We may be able to assist you. Please note: in the minimum repayment warning calculation, we use the cash advance rate and apply it to the entire balance.

Then circle back around and give your kids even more context:

‘Jane, that means that if you were to have the average credit card now, and pay the minimum each month like most people do, you’d be MY AGE by the time you paid it off. As in nearly dead! And you would have spent the equivalent of our car on interest! And you’d have absolutely nothing to show for it!’
