

You're so far ahead of most people (even adults) you're ready for the 'title fight of finance' . . .

How to earn \$453 329 in 15 minutes

Right now I'm going to show you how you can boost your super by \$453 329 over your lifetime.

And no, I'm not playing with you—this is going to be the most profitable 15 minutes of your life.

And yes, you are totally up to the challenge:

You're on Snap, aren't you?

For the life of me I can't work it out. 'How do I know who is following me?' I asked my kids' 15-year-old babysitter. 'Don't worry,' she said. 'I don't know any old people who use Snapchat anyway.'

Ouch!

Seriously, this is going to be a Snap.

The *real* three steps to success

Alright, so let Uncle Scott give you the *real* three steps to success.

And unlike a high school guidance counsellor, I'm not going to give you any fluffy stuff—this is strictly money stuff.

Now, if you're stressed that you may not be up to the challenge, relax.

Over the years I've shown literally hundreds of thousands of people how to get a better deal with their super.

Some of them would struggle to lick a postage stamp.

You, on the other hand, regularly arrange covert missions where your dad thinks you're at hockey practice, your mum thinks you're doing homework at your friends' house . . . and you're actually out with your boyfriend.
