

Think about the headstart you would have had if *you'd* checked them off when you were still in school.

I've worked through the Barefoot Ten with kids of all ages, and I can tell you it boosts their confidence—often dramatically.

Instead of internalising what the bullies at school say about them, or what the bullies online say about them, or what the bully who looks at them in the mirror each morning says about them . . . the Barefoot Ten changes their identity, and lifts their vision for what they can go out and achieve. They're prepared, and in control.

That's what the Barefoot Ten will give your kid.

Part III: Off and Running

By the time you get to this part, you'll have already scored the big wins that will ensure your kids never have to worry about money. That's a feat worth celebrating, and that's exactly what we'll do—in fact, I've organised a very unusual celebration for you. Plus, I'll show you how to keep your family safe and secure, with a strategy I call the 'Fearless Folder'.

That's the game plan.

So how the hell are we actually going to achieve all this?

With food.
