

Okay, now as you munch on Tim Tams, let's *jam* . . . jars (and that is my first, and last, dad joke of the book).

Jam jars are the new buckets

If the whole idea of dividing your money into three sounds familiar, you'd be right . . .

If you read *The Barefoot Investor*, you'll know that I have the simplest money management system going round. In fact, it's so simple I sketched it out on a serviette on my very first Date Night with my wife. Which is why I call it the 'Serviette Strategy'.

As part of that strategy, I recommended dividing your money into 'buckets', and setting up several bank accounts: 'Daily Expenses', 'Smile', 'Splurge', 'Fire Extinguisher' and 'Mojo'.
