

With your First Steps in place, you've *already* laid the groundwork for raising financially secure, hard-working kids.

Heck, you could close the book right now and be further ahead than most parents will ever get.

But now it's time to have some fun.

Over 10 extra-special Barefoot Money Meals, you're going to create a handful of magic moments that will equip your kids with the specific money skills you probably wish you had when you left home.

By the time we're done, I can promise you'll never have to worry about your kids' financial future again.

What's more, in this part I'm going to:

- show you the exact bank accounts to set up for your kids
- teach you how to play Flogglebox, the fun game that'll immunise your kids against TV marketing—for life
- reveal how you can 'break the brat' in even the most materialistic kids in one evening
