

bedrooms and the kitchen are very large I would always recommend having
.an area for housemates to dine

.On the next page is a typical example of the layout of a good 4-bed HMO

Total Monthly Rent = £1,400

I used to think that to do this

you must find a large 4/5 bedroom detached house with a great big driveway for all the cars. You would also need a huge kitchen with spacious hallways built in and, of course, en suites in all the bedrooms. On top of that, don't forget all the planning permission and building regulations to
.comply with, along with an HMO Licence

By the time you have done all this, on top of your deposit money, it would probably cost £50,000 for the conversion, along with six months' worth of
.work and planning

The reason I thought this is because that is the impression I got from investors who were already investing in HMOs. I have noticed that often,
