

AUTHOR'S NOTE

This book is the story of my money, and the personal journey I went on to make it. None of the content, anecdotes, stories, opinions, or recollections contained in this book should be construed as investment advice, especially as they relate to any financial products I may represent. Investors should speak with their financial advisors for any investment advice and to discuss the risks of investing in any financial product. This book represents my personal opinions and should be enjoyed as such. Please note that names and identifying details of some of the people portrayed in this book have been changed.
