

Case Study 2: Capped T&M for Digital Transformation Roadmap Development

A multinational manufacturing company sought to develop a comprehensive digital transformation roadmap to enhance its operations and competitiveness. Due to the strategic nature of the engagement and the potential for evolving requirements, the company engaged a consulting firm under a capped time and material contract.

Initial Contract Terms	Scope: Conduct a comprehensive assessment, develop a digital transformation strategy, and create a detailed roadmap for implementation.
Cost Cap \$1 million	
Time Cap 6 months	
Resource Cap Maximum of 6 consultants
