

The chart represents tax implications and liability exposure for different business structures (sole proprietorship, partnership, corporation, and LLC). Each axis represents a different factor:

- Pass-through Taxation
- Corporate Taxation
- Double Taxation
- Personal Liability Protection

Sole Proprietorship and Partnership: High on pass-through taxation, no corporate taxation or double taxation, and no personal liability protection.

Corporation: High on corporate taxation, double taxation, and personal liability protection, but no pass-through taxation.

LLC: High on pass-through taxation and personal liability protection, but no corporate taxation or double taxation.
