

Step 5

Physical Evidence (7 P's)

Evaluate the physical aspects that influence customer perception:

- Product packaging and branding
- Retail or service environment (e.g., store design, ambience)
- Employee appearance and uniforms

Step 6

People (7 P's)

Assess the role and impact of human resources:

- Customer service and frontline staff
- Sales force effectiveness
- Training and development programs

Step 7

Process (7 P's)

Analyse the processes involved in delivering the product or service:

- Customer experience and journey mapping
- Operational efficiency and streamlining
- Integration of digital technologies and automation

Step 8

Identify gaps and opportunities

Based on the analysis, identify areas where the company's marketing efforts may be lacking or opportunities for improvement or differentiation exist.
