

Step-by-step application of using this framework:

Step 1

Company Analysis

Evaluate the client's internal strengths, weaknesses, and capabilities:

Strategy and business model

Operations and processes

Financial performance and resource allocation

Organisational structure and culture

Product or service offerings

Step 2

Competition Analysis

Analyse the competitive landscape and positioning of rivals:

Market share and competitive positioning

Competitor strategies and business models

Strengths, weaknesses, and differentiation factors

Barriers to entry or exit for new competitors

Industry trends and disruptive forces
