Step 3

Bargaining Power of Buyers

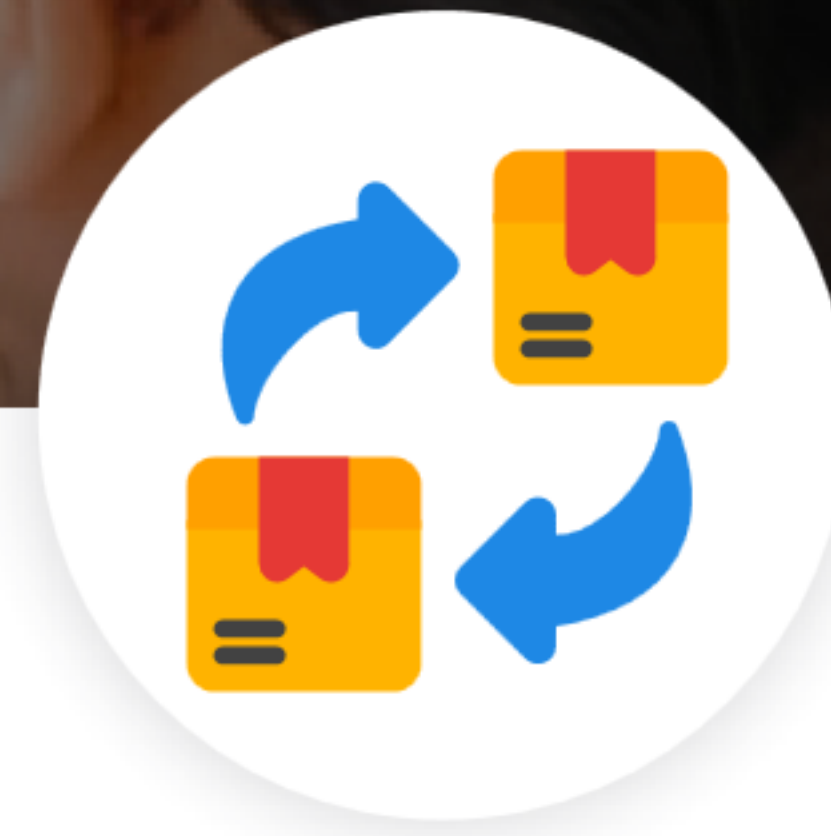

Assess the bargaining leverage and influence of buyers or customers:

Buyer concentration and purchase volumes

Switching costs for buyers to change suppliers

Availability of substitute products or services

Price sensitivity and buyer information levels

- X

Step 4

Threat of Substitute Products or Services

Identify the potential for substitute offerings to disrupt the industry:

Relative price-performance trade-off of substitutes

Switching costs for customers to adopt substitutes

Perceived level of product differentiation

- X

Step 6

Analyse the combined impact

Assess the collective strength of the five forces to determine the overall industry attractiveness and profitability potential.

Stronger competitive forces generally lead to lower profitability and vice versa.
