

Conflicting Organisational Culture or Values

If a client's organisational culture or values clash significantly with a particular framework's underlying assumptions or principles, its application may encounter resistance or prove ineffective. For example, a framework emphasising hierarchical decision-making may not be suitable for an organisation with a flat, collaborative structure.

The key is to balance leveraging frameworks and maintaining the flexibility to adapt to unique circumstances. Skilled consultants must know when a framework is appropriate and alternative approaches are necessary, always keeping the client's best interests at the forefront.
