

Clients also expect consultants to be prepared with multiple recommendations to discuss and debate the pros and cons of each option. They want to be part of the decision-making process, not just receive one dictated solution. This democratic approach requires consultants to develop various scenarios and alternative recommendations in Excel for discussion.

Once a scenario or recommendation is finalised with the client’s buy-in, the Excel model is the perfect tool to showcase it visually through clear step-by-step calculations, intuitive charts, and graphics. These representations in Excel make the recommendations easy for all stakeholders to understand, discuss, and decide upon.
