

Arithmetic and Mathematical Functions

Excel has built-in functions to perform basic arithmetic calculations like:

Addition: SUM()

Division: /

Subtraction: - operator

Percentage: %

Multiplication: *

Exponents: ^

It also includes a wide range of more advanced mathematical functions like:

Statistical: AVERAGE(), COUNT(), MAX(), MIN(), etc.

Trigonometric: SIN(), COS(), ATAN(), etc.

Truncating/Rounding: ROUND(), INT(), CEILING(), etc.

And many more...
