

finances looked like at retirement. This points to something we noted in a shocking majority of millionaires: strong, healthy, long-lasting marriages. We found that 80% of millionaires are married, compared to 49% of the general population. More significantly, 63% of millionaires are in a first marriage, compared to only 38% of the general population. Finally, only 5% of millionaires report being currently divorced, compared to 19% of the general population. So, the general population has *four times* the divorce rate than that of millionaires!
