

[Table 26.4](#) shows breakout-related statistics.

Breakout direction. By definition, the breakout is upward when price closes above the highest peak between the two bottoms. All double bottoms have upward breakouts; otherwise they are not valid patterns.

[Table 26.3](#) Cumulative Failure Rates

Maximum Price Rise (%)	Bull Market
5 (breakeven)	189 or 16%
10	163 or 31%
15	107 or 40%
20	97 or 48%
25	85 or 56%
30	69 or 62%
35	61 or 67%
50	112 or 77%
75	110 or 86%
Over 75	161 or 100%
