

question, give a small, work-related flaw that you're working hard to improve. Example: "I've been told I occasionally focus on details and miss the bigger picture, so I've been spending time laying out the complete project every day to see my overall progress."

13. Let's talk about salary.

What are you looking for?

.....

Run for cover! This is one tricky game to play in an interview. Even if you know the salary range for the job, if you answer first you're already showing all your cards. You want as much as possible; the employer wants you for as little as you're willing to take. 15. Tell me a suggestion you have made that was implemented.

.....

It's important here to focus on the word "implemented." There's nothing wrong with having a thousand great ideas, but if the only place they live is on your notepad, what's the point? Better still, you need a good ending. If your previous company took your advice and ended up going bankrupt, that's not such a great example either. Be prepared with a story about an idea of yours that was taken from idea to implementation, and considered successful.

16. Has anything ever irritated you about people you've worked with?

.....

Of course, you have a list as long as your arm. But you can't say that; it
