

# 6 Savvy Ways to Travel around a City

---

Getting from one place to another presents a challenge in any city. For figuring out free and low-cost city transportation, nobody finds better deals than Sharon Harvey Rosenberg, the Frugal Duchess and author of a book by the same name. Here's her list of insider suggestions for figuring out free and frugal transportation options in nearly any major city here in the U.S.

## 1. Free trip planners for mass metro transit

Many cities provide online trip planners for their visitors. Some even team up with Google Maps Transit ([www.Google.com/Transit](http://www.Google.com/Transit)) to allow people to plan trips within various major United States cities, and a few others around the world. Miami, for example, has this cool feature built in to their transit site which will allow you to view via your handheld mobile device the time of the next train's arrival, just in case you miss your connection. Or, you can print out some

schedules ahead of time and keep them in page protectors to reference in case of delays.

## 2. Employer subsidized transit / parking passes

Big corporations often provide transportation subsidy programs for their employees. It's a huge financial help to you and an affordable job benefit for them to provide.

## 3. University shuttles

These are almost always free for the riding, and Sharon has used this service successfully for her entire family while out and about on her book tour. In her case, she was a guest of the university making a public appearance, but consider trying this out for yourself while touring a new metro area. Often these shuttles have regular routes to and from major tourist destinations and other transportation hubs.

## 4. Seasonal or monthly mass transit passes

Basically, this is bulk buying for on-the-move city folks. Super deals are available if you are not just in town as a tourist needing a day pass. Getting bulk passes for bus rides, train
