

around based on the biggest expense or “pain point” you’re experiencing right now. Then once you have at least one expense under control, choose another, and another, until you’ve lowered everything you possibly can.

I strongly suggest you have a highlighter and pen nearby. This isn’t a book that you pick up, read, and never interact with or reference again.

Remember, this is your expense-reducing guidebook! Each chapter has three action steps you can take right away, plus links to plenty of other resources to help support your journey.

I also encourage you to share your progress on social media using the hashtag #ReduceYourExpenses. Share a favorite tip or quote, and by all means, let me know how much you save! You never know who you might inspire to try *31 Days* themselves.

One last thing before we dive in—what you put into this process is what you’ll ultimately get out of it. So if reducing your expenses in a radical way is important to you, take my suggestions, tips, and tricks, and put them into action as soon as you can. You’re the one that has the power to make lasting change, and with this info-packed tool in your hands, you’re going to be unstoppable!

I am excited for you to start your journey through *31 Days*. You’ll quickly discover that more money at the end of the month is not just a pipe dream; it’s finally a reality—one that moves you closer than ever before to the financial freedom you crave.

The only question is, are you ready?
