

DAY 17 ACTION PLAN:

- If you're not positive about what your insurance policy covers, take some time to go over it and understand all the percentages, copays, and deductibles in full.
- Inspect your last medical bill to make sure it was coded and paid properly. Call your doctor with any questions if you're not sure.
- Make a healthy lifestyle choice. Go for a brisk walk or swap out a pre-packaged snack for a piece of fruit. It's better than doing nothing at all!
