

- 2 Tbsp borax
- 2 cups boiling water

*Mix soap flakes and borax together in a bowl, slowly add boiling water and stir until smooth. Let cool, then whip into a foamy consistency. Brush suds onto furniture with a bristle brush and scrub away with rag.

Furniture Polish

- 1 cup olive oil
- 1/3 cup lemon juice
- 1 clean 16-ounce spray bottle

Laundry Detergent

- 3 Tbsp borax
- 3 Tbsp washing soda
- 3 Tbsp Dawn dish soap
- Water
- 1 clean gallon container

*Pour borax, soda, soap, and 4 cups boiling water into container, then stir and let cool. Fill the rest of the container with cold water. Use ½ - 1 cup per load, depending on size.

It will take a little trial and error to see what combinations you like best, and what cleans the best, but the total cost of making your own products is pennies compared to what you buy in the store. It's a lot more eco-friendly too!
