

DAY 30 ACTION PLAN:

- Start a “Scrap Printer Paper” pile and use it every time you need to print something not as important. Better yet, see if you can get away with not printing at all!
- Check [Amazon.com](https://www.amazon.com) for the ink or toner cartridge your printer uses and compare prices at Staples and Office Depot.
- Set aside twenty minutes to round up all the office supplies in your home, and organize them in one place. Invest in a couple small storage boxes, if needed.
