

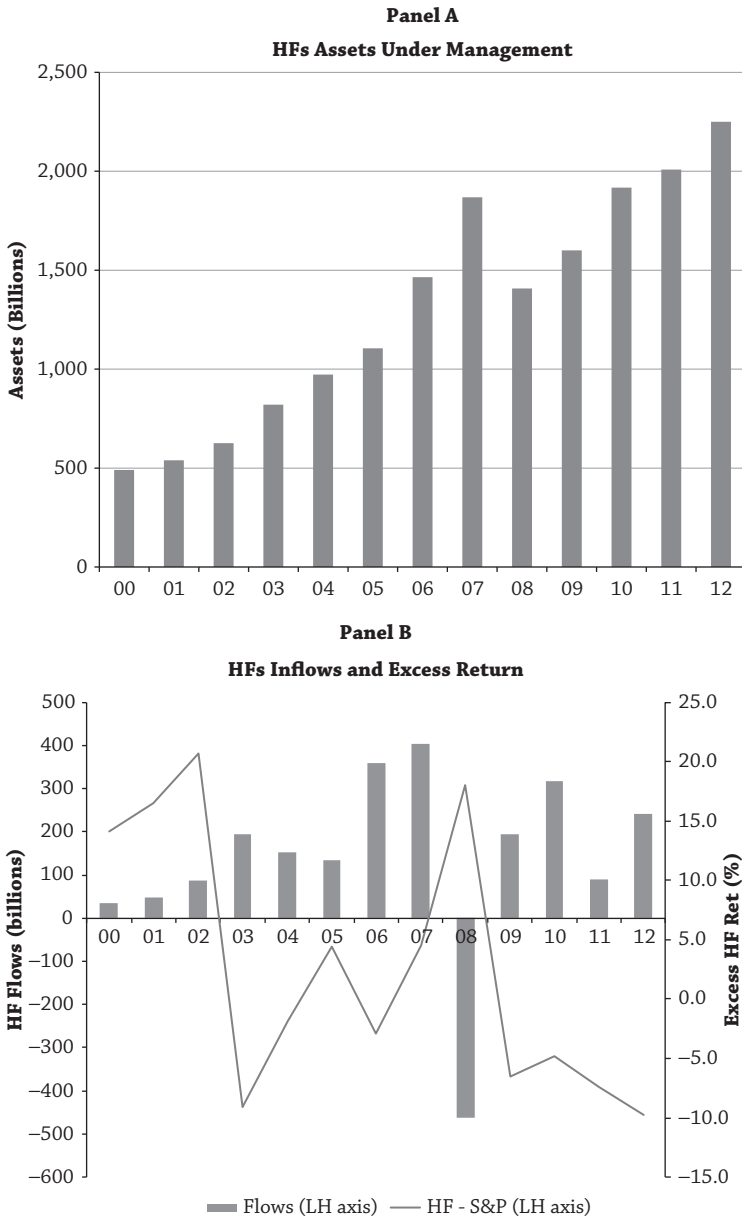

Figure 17.1

Figure 17.1, Panel A plots assets under management in HFs since 2000 as reported by HFR.¹⁹ From 1990 to 2012, the growth in HF assets was roughly 14% per year. It would have been even greater except for a hiatus during the financial

¹⁹HFR starts earlier, but reported data tends to be sketchy for very early years. This is true for all HF databases.
