

“I have been fortunate to count Bob Prechter among my close friends for many years. As such, I have been elated by his astonishing record of eerily accurate market calls over more than two decades. (But as a consummate gold bug with a bullish bias toward the yellow metal, I have often wished that Bob’s success wouldn’t come at my expense!) Bob has done it again with *At the Crest of the Tidal Wave*. In his typically clear style, he makes the complex seem simple, and explains what the Elliott Wave Principle predicts for each major market. *At the Crest of the Tidal Wave* is the closest thing to a crystal ball that we could hope for. It is a road map to the future that no investor should be without.”

— James U. Blanchard III, Chairman, Jefferson Financial

“Based on his data and revealing multi-century charts, Mr. Prechter has arrived at a spectacularly bearish conclusion whose very specificity deserves consideration by all serious market students. It will be a long time before this convincing case for a Major Bear Market turns out to have been correct, as is always true for farsighted predictions. But all of Mr. Prechter’s very readable books deserve a place in investors’ libraries because if his haruspications turn out to have been correct, he will be a historic figure. His positions are always worth considering and the marvelous long-term charts are a bonus.”

— James Dines, Editor, *The Dines Letter*

“Human nature includes ‘the madness of crowds.’ Current financial excesses are destined to collapse in overreaction and Bob Prechter explains why. *At the Crest of the Tidal Wave* is required reading if one wants to prepare for a coming rare and tragic event.”

— Ron Paul, Congressman from Texas 1976-1984

“Read this book. You may not agree, but you must understand Prechter’s argument. Ignorance may not be bliss — it may mean bankruptcy. Ignore the message at your risk.”

— Richard D. Lamm, Dartmouth College Fellow,
Governor of Colorado 1975-1987

“This is a must read not only for serious investors but for those who are interested in the financial future of our world and the quality of their lives.” — Anthony Robbins, Author, *Awaken the Giant Within; Unlimited Power*
