

From the compliance perspective, the transfer is a prerogative of an employer. Supreme Court decisions have supported organizations in this regard.

Should I transfer an employee or not?

An employee can only request an organization for transfer. The organization may accept or decline the request depending on the availability of the position or suitability of the employee for the role. This tells us that there are multiple types of transfers.

Types of Transfers

The transfers can be put in two broad categories.

1. Organization Initiated

These types of transfers are initiated by the organization.
