

3. Clearances

As the last working day is agreed. A plan is prepared for managing the smooth exit of the employee. The key activities include

- a. Knowledge Transfer (Customer Contacts, Work in Progress, Documents)
- b. Return of Assets (Laptops, Identity card and Locker keys)
- c. Cancellation of Access (IT Access, Premises Access and Email Access)
- d. Employee Updates (Communication Address, Bank Details, Contact details)

You should designate people for providing clearances against all the activities mentioned in the plan. In death cases, the clearance process should be completed by the manager of the employee.
