If an employee is under the influence of alcohol at the time of an accident, the nominees do not get the accident benefits.

Beyond these benefits, you may decide to pass on further benefits like child education, pension or job to a family member. Ensure that your documentation is perfect so that the nominee to receive these benefits seamlessly.

Documents for Death Cases

The documents required for death cases include

1. Nomination Form.
2. Know Your Customer (KYC) documents of the nominee.
3. Bank details and canceled cheque of the nominee bank account.
4. Statement of contributions made by the employer toward PF, ESI, Gratuity and Insurance.
5. Death Certificate for the employee.

In case of accidents, additional documents are required including

1. First Information Report (FIR) or Police report
2. Post Mortem Report - determining reason of death.
3. Accident Report - the incident report detailing circumstances of death.
4. Medical certificates - records of the treatment of injuries.

The documents look simple. The problem starts if the employee had not filled out the nomination form. In such cases, the legal heirs must submit a succession certificate in order to claim the benefits. Mostly, these cases end up in dispute and are rarely settled.

To manage the accident and death cases efficiently and effectively you need to create a DELTA ecosystem.
