

3. Effectiveness of the outcome

4. Cost of the outcome

5. Quality of the outcome

6. Coverage of the outcome

You may choose to measure one or some aspects of an outcome based on your business requirement. The popular HR metrics are a mixed bag of these aspects.

Popular HR Metrics

Here are some popular metrics used by organizations. The measures are popular as they bring ORDER, and everyone measures them. That makes the benchmarking process easy. These measures are grouped under five categories. You will observe that the popular measures of each category highlight a different aspect. You may choose a time period (week, month, quarter, year) for measuring them.

1. Organization Metrics

The organization metrics are also called financial metrics. The Organization metrics include
