2. Misuse

The AI tools are freely available in the open market for free. The candidates can use them to qualify the assessments or use deep fakes for proxies.

3. Legal Concerns

Copyright and privacy issues may result in penalties.

4. Data Privacy Concerns

Data leakages, especially of personal sensitive information and healthcare data, can cause harm to both organizations and individuals.

Meta was fined \$400 million by the European Union for breaching privacy rules.
