Let's understand the key tools that create VIBE in the organization by structuring compensation.

VIBE : Structuring compensation to motivate

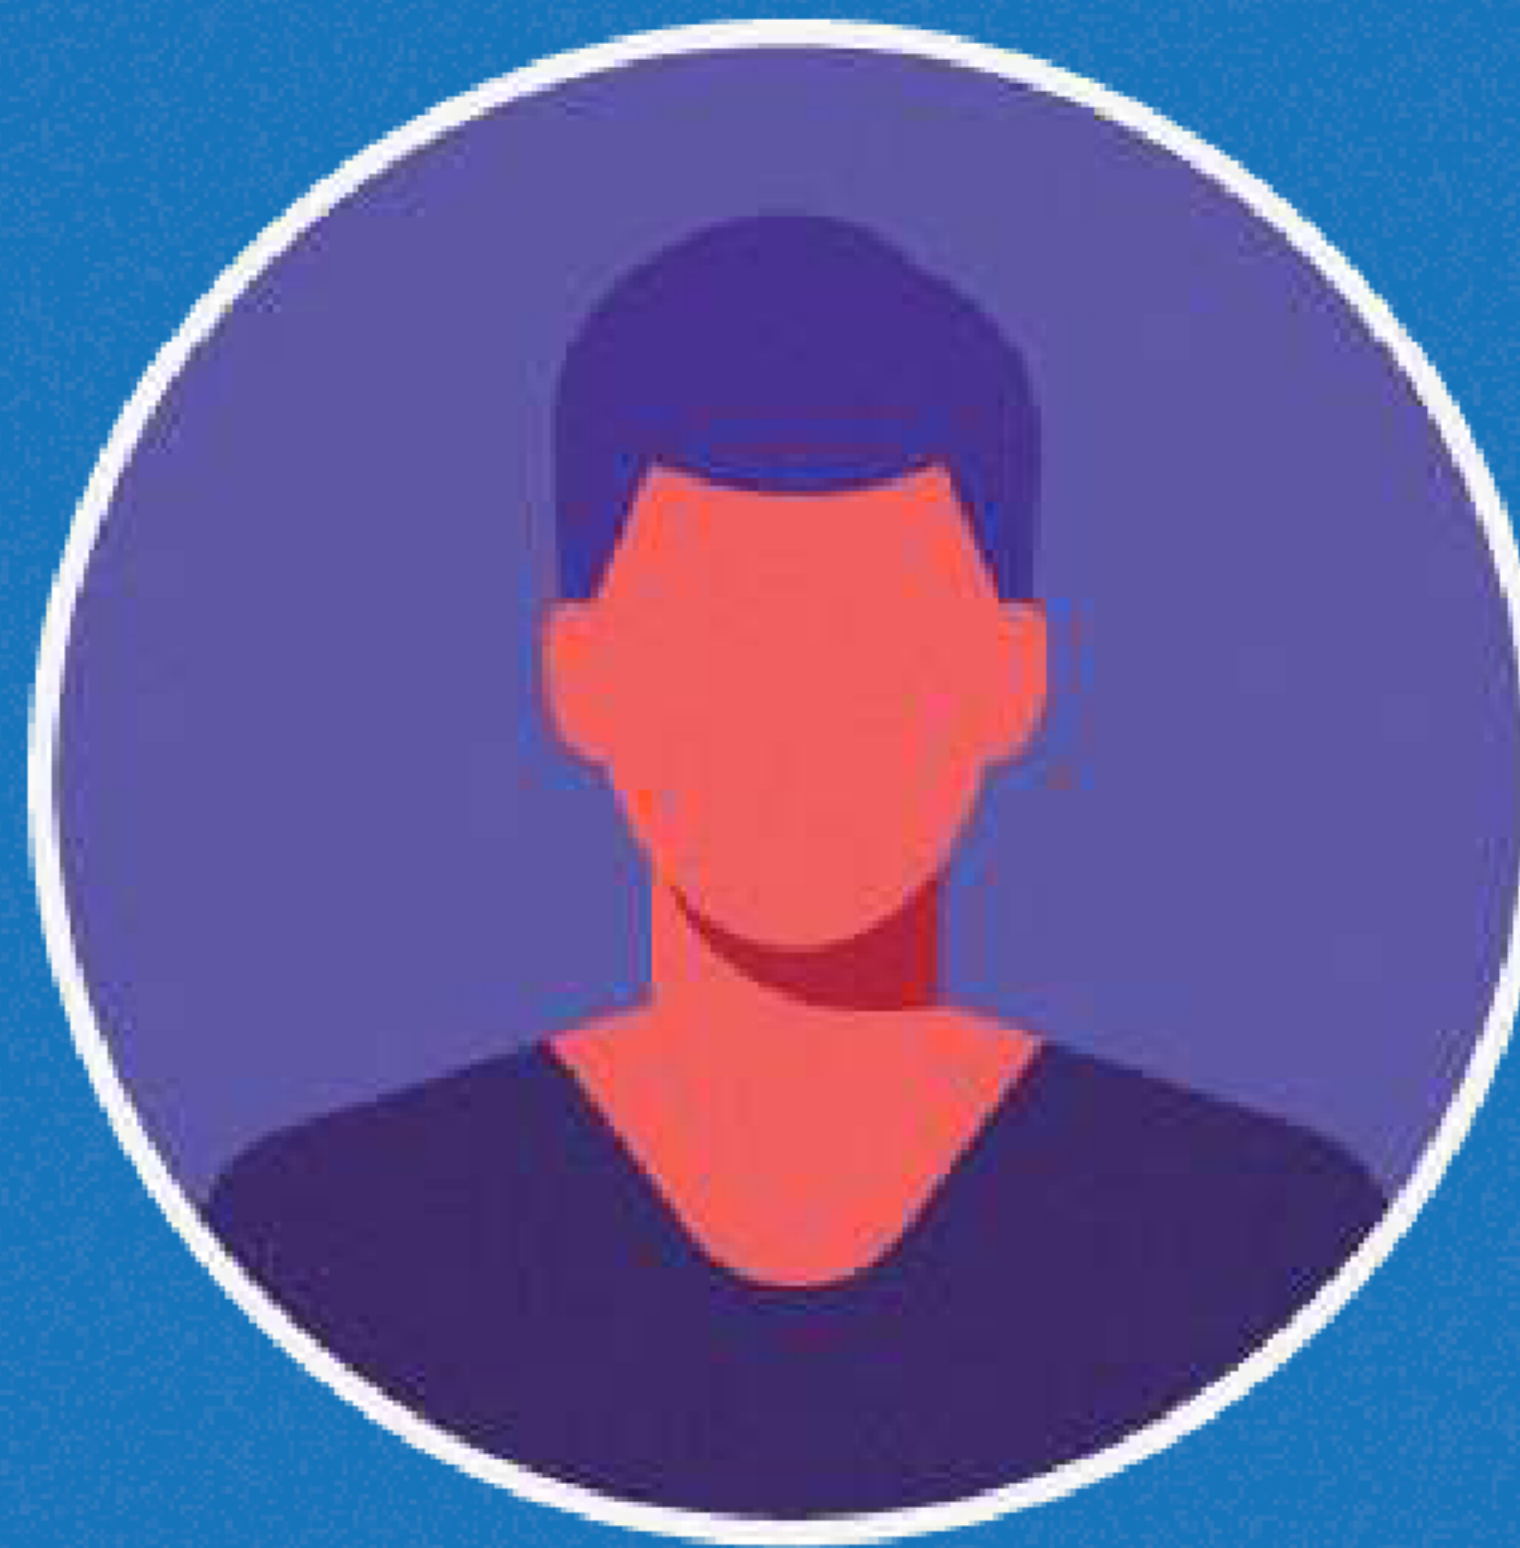

This is another addition to your HR tool Kit. The VIBE methodology offers four key tools you must know as an HR expert.

1. Variable Pay

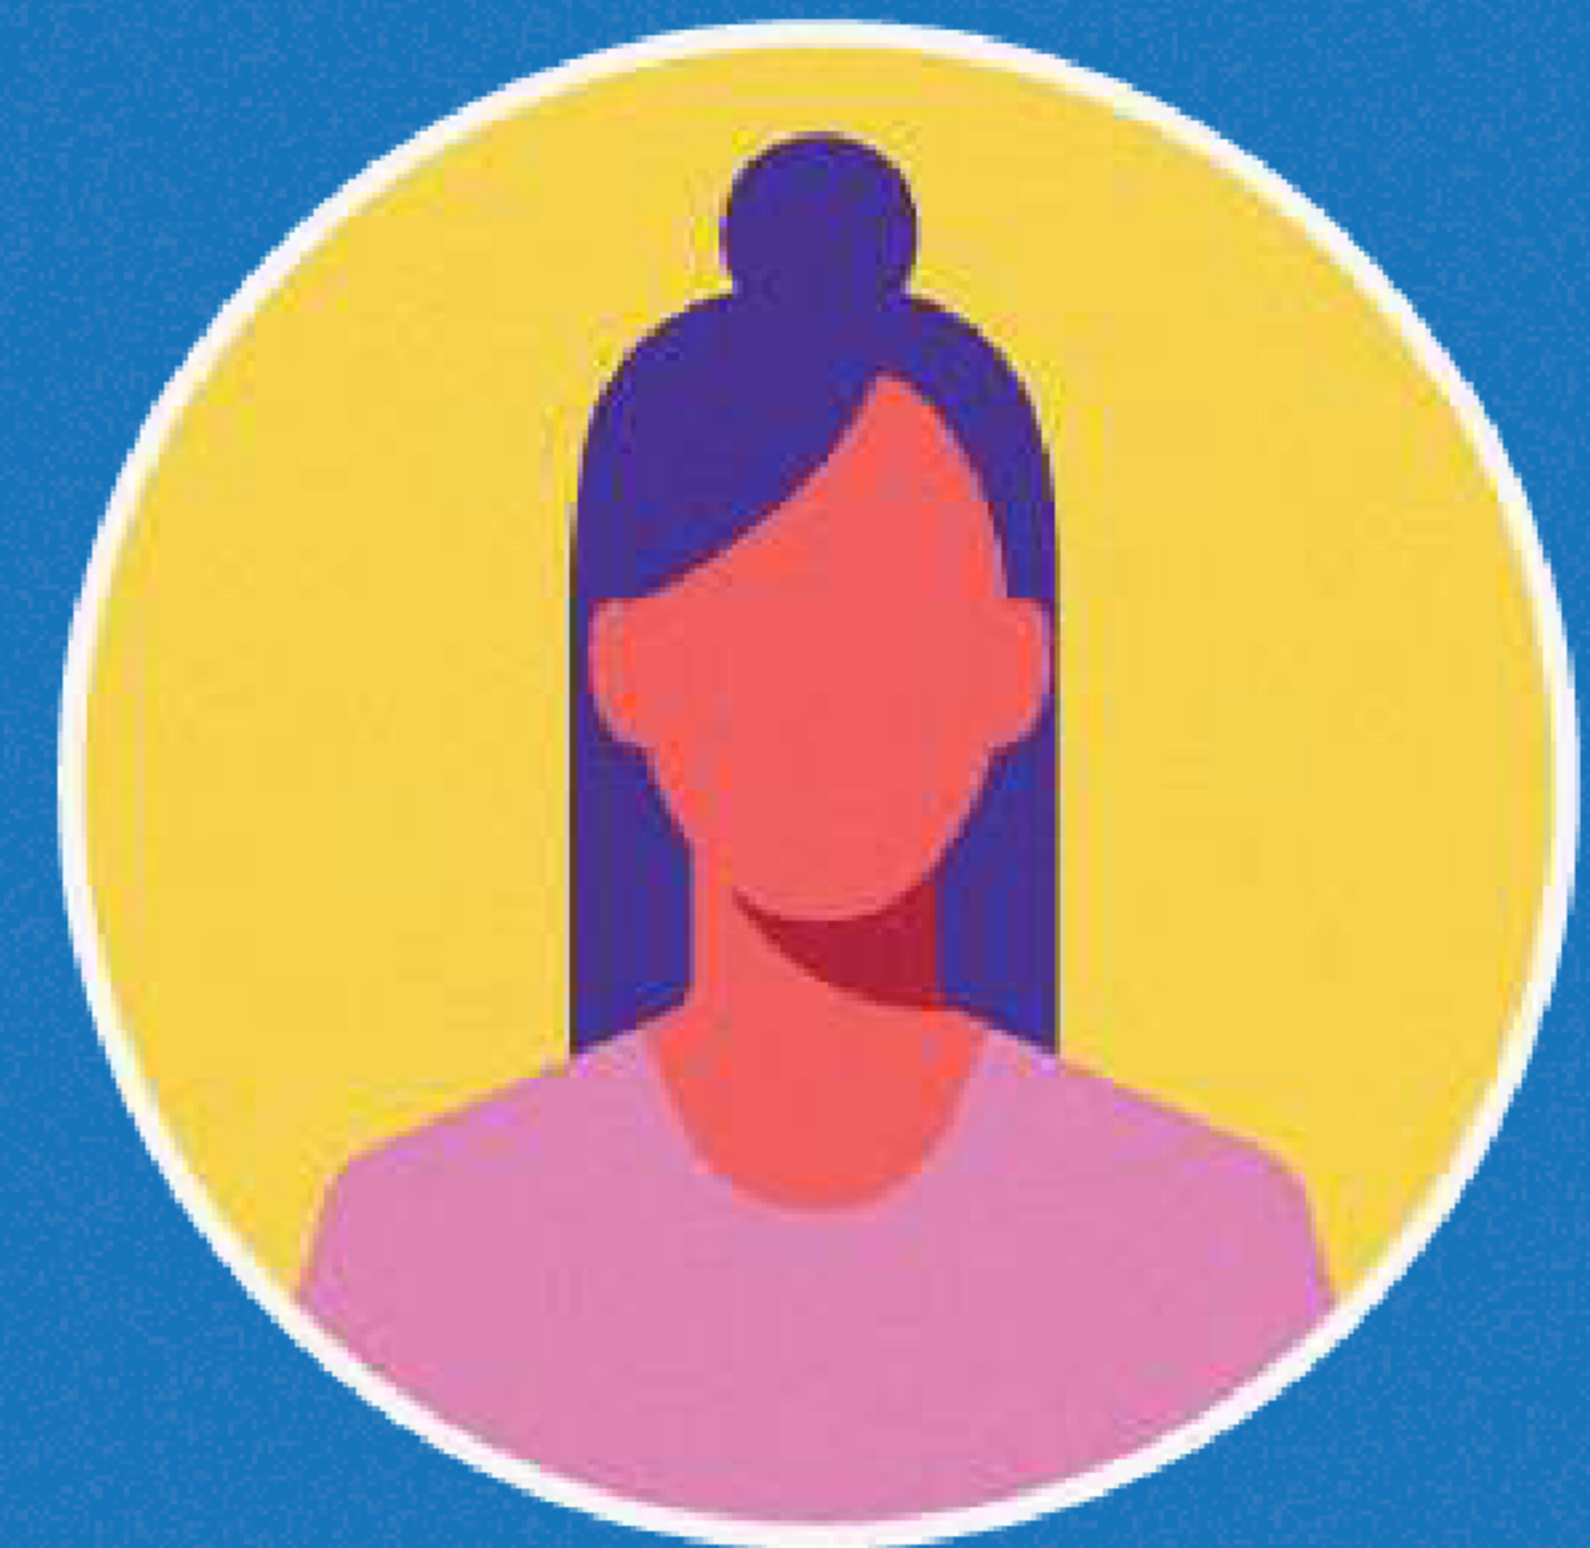

Instead of offering 100% of the compensation as fixed. You may offer a portion of the compensation as a variable pay. This becomes part of CTC.

Senior Executive Employee

Middle Management Employee

Junior Level Employee

At junior level the variable pay is typically 10% to 15%. At the middle management level, the variable pay increases to 15% to 30%. The senior executives have variable pay between 30% to 50%. These numbers may vary depending on the job role, industry and competitive scenario.
