

a. Employee Stock Options Programs (ESOPs)

ESOPs give a right to an employee to buy the stock shares of the organization at a discounted price within a defined period of time.

The stock options have three important steps:

b. Restricted Stock Unit (RSUs)

June	July	August
		3000 Shares issued

3000 shares

Buy Sell

RSUs are a promise to issue a number of shares on a future date. The employee does not have to buy them in most cases. These granted shares can be sold in the open market. The RSUs also have a vesting period.
