

Methods of Salary Adjustments

You may choose to compensate for multiple reasons and create organizational norms around it.

The salary is corrected based on role change or location change. This is done to ensure fair pay for work and to account for cost of living. These can be governed by policies.

Most organizations review salary of employees on an annual basis. Hence, it is called an annual appraisal. However there are a few organizations that review salary every six months, while there are a few others who follow a once in a two year cycle.

Annual Appraisal Process

The annual appraisal is done in following steps

1. Define Budget
