

B. New Opportunities

Partnerships can open up new opportunities for entrepreneurs in various ways. By collaborating with known and established businesses, entrepreneurs can get valuable information regarding funding, infrastructure, technology, etc. It also provides access to new markets, customer segments, and distribution channels enabling rapid growth.

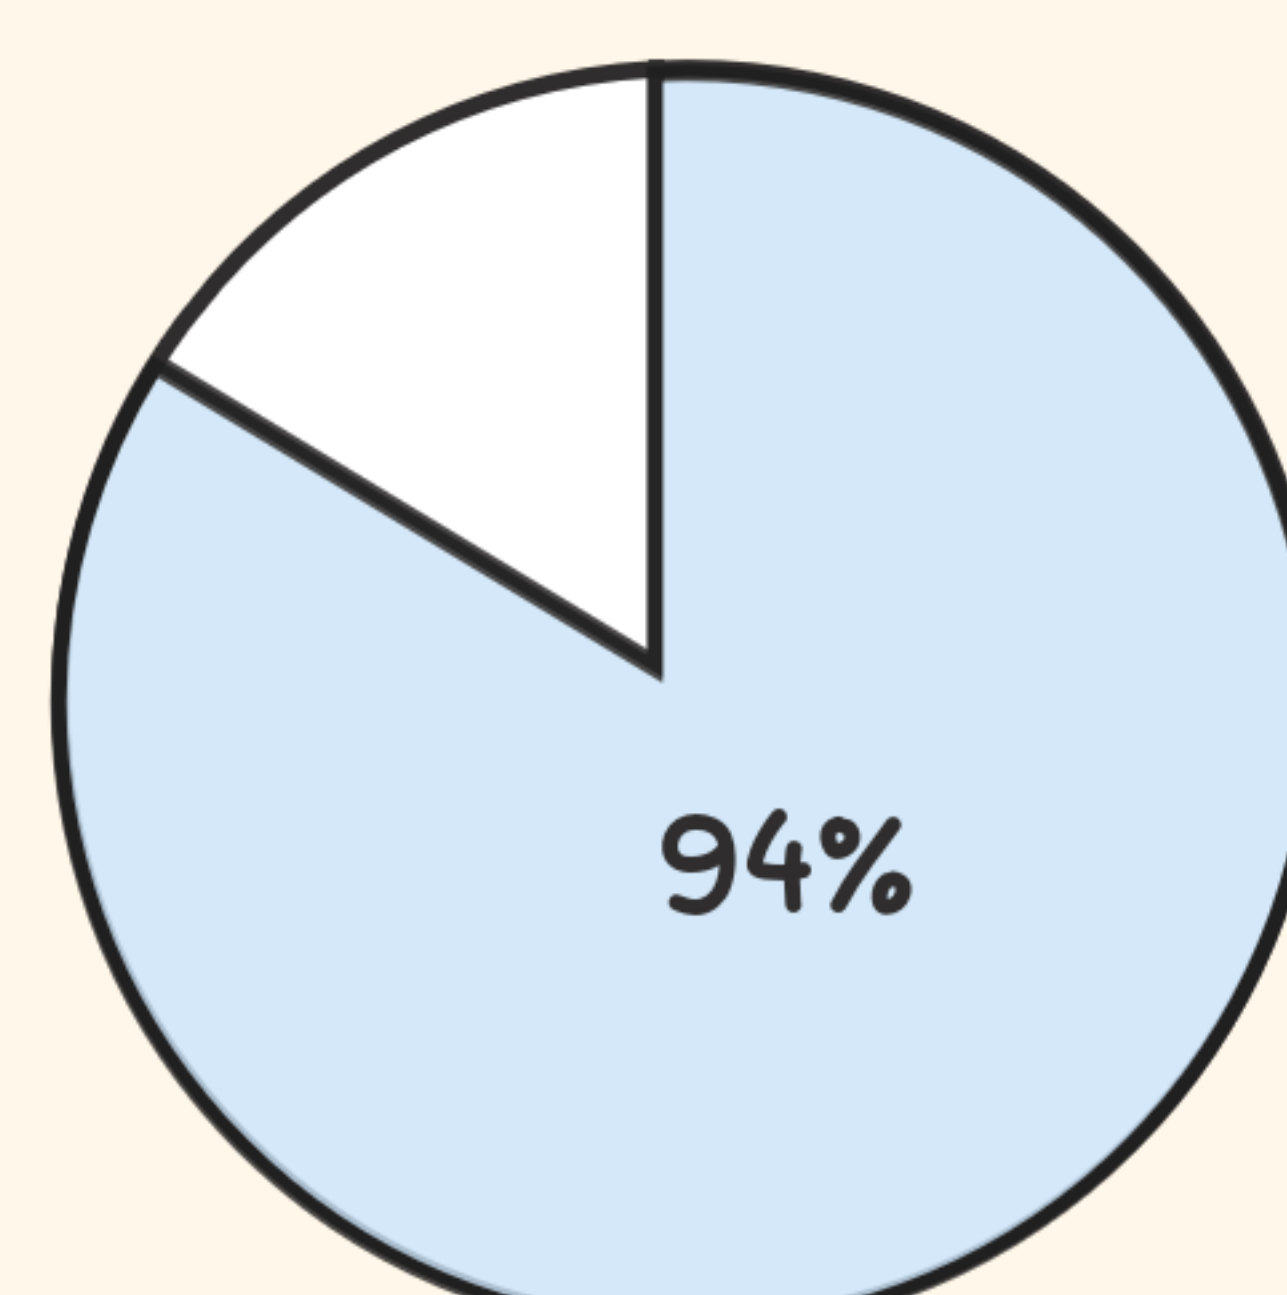

C. Partnerships Fuel Innovation

Businesses can go beyond just generating revenue. Research conducted by the BPI Network reveals that **44% of businesses actively seek alliances** to gain access to new ideas, insights, and innovative concepts. Similarly, a report published in the Harvard Business Review indicates that a **staggering 94% of technology executives consider innovation partnerships** as part of their strategic approach.
