

The Four-Step Strategy to Blue Ocean

Raise: Focus on Enhancing

- ➡ What key areas within the market or industry require significant improvement? To identify significant factors for improvement within a market, consider these aspects.

- ➡
- Customer needs
 - Technological advancements,
 - Regulatory environment
 - Supply chain management
 - Customer experience

Identify Factors for Improvement

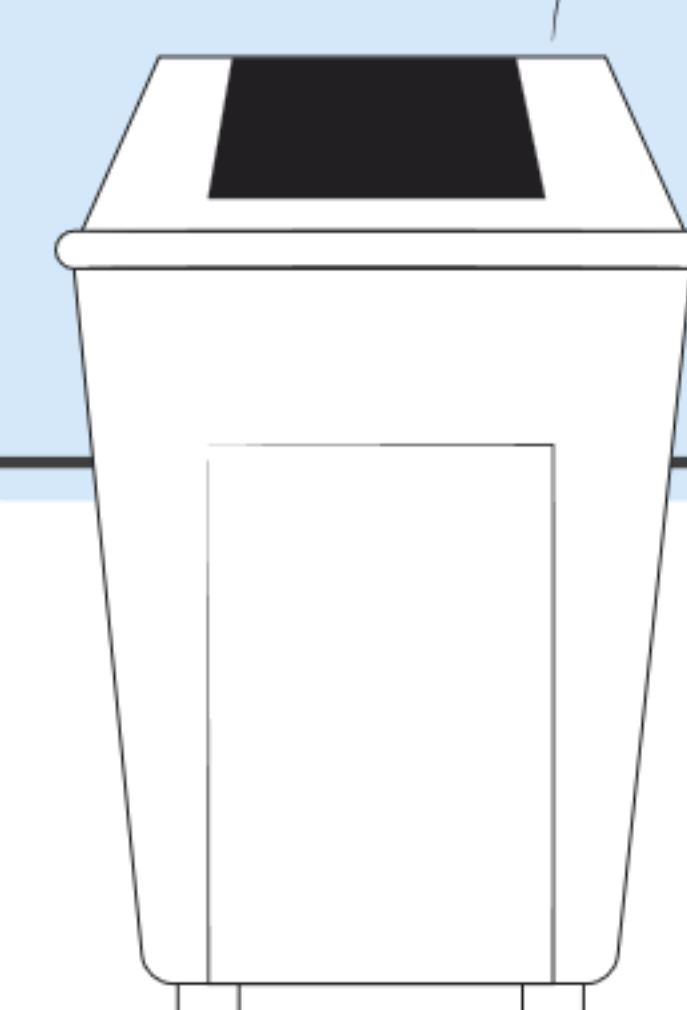

Reduce: Focus on Minimization

- ➡ What were the results of competing against other companies, and what aspects can be minimised or reduced?
- ➡ Competing with other companies could yield various results, which include increased market share, pricing strategies, product innovation, etc. By reducing the area, you can cut unnecessary costs or improve efficiency.

Eliminate: Focus on Removing Barriers

- ➡ What existing industry practices should be eliminated to make customer's lives easier?
- ➡ Practices such as the paperwork process, outdated customer service, and unnecessary fees make smoother operations and increase customer satisfaction.

Outdated Practices
