

6.

Customer Notification

Develop a system, such as digital screens or mobile notifications, to alert customers when their order is ready for pickup.

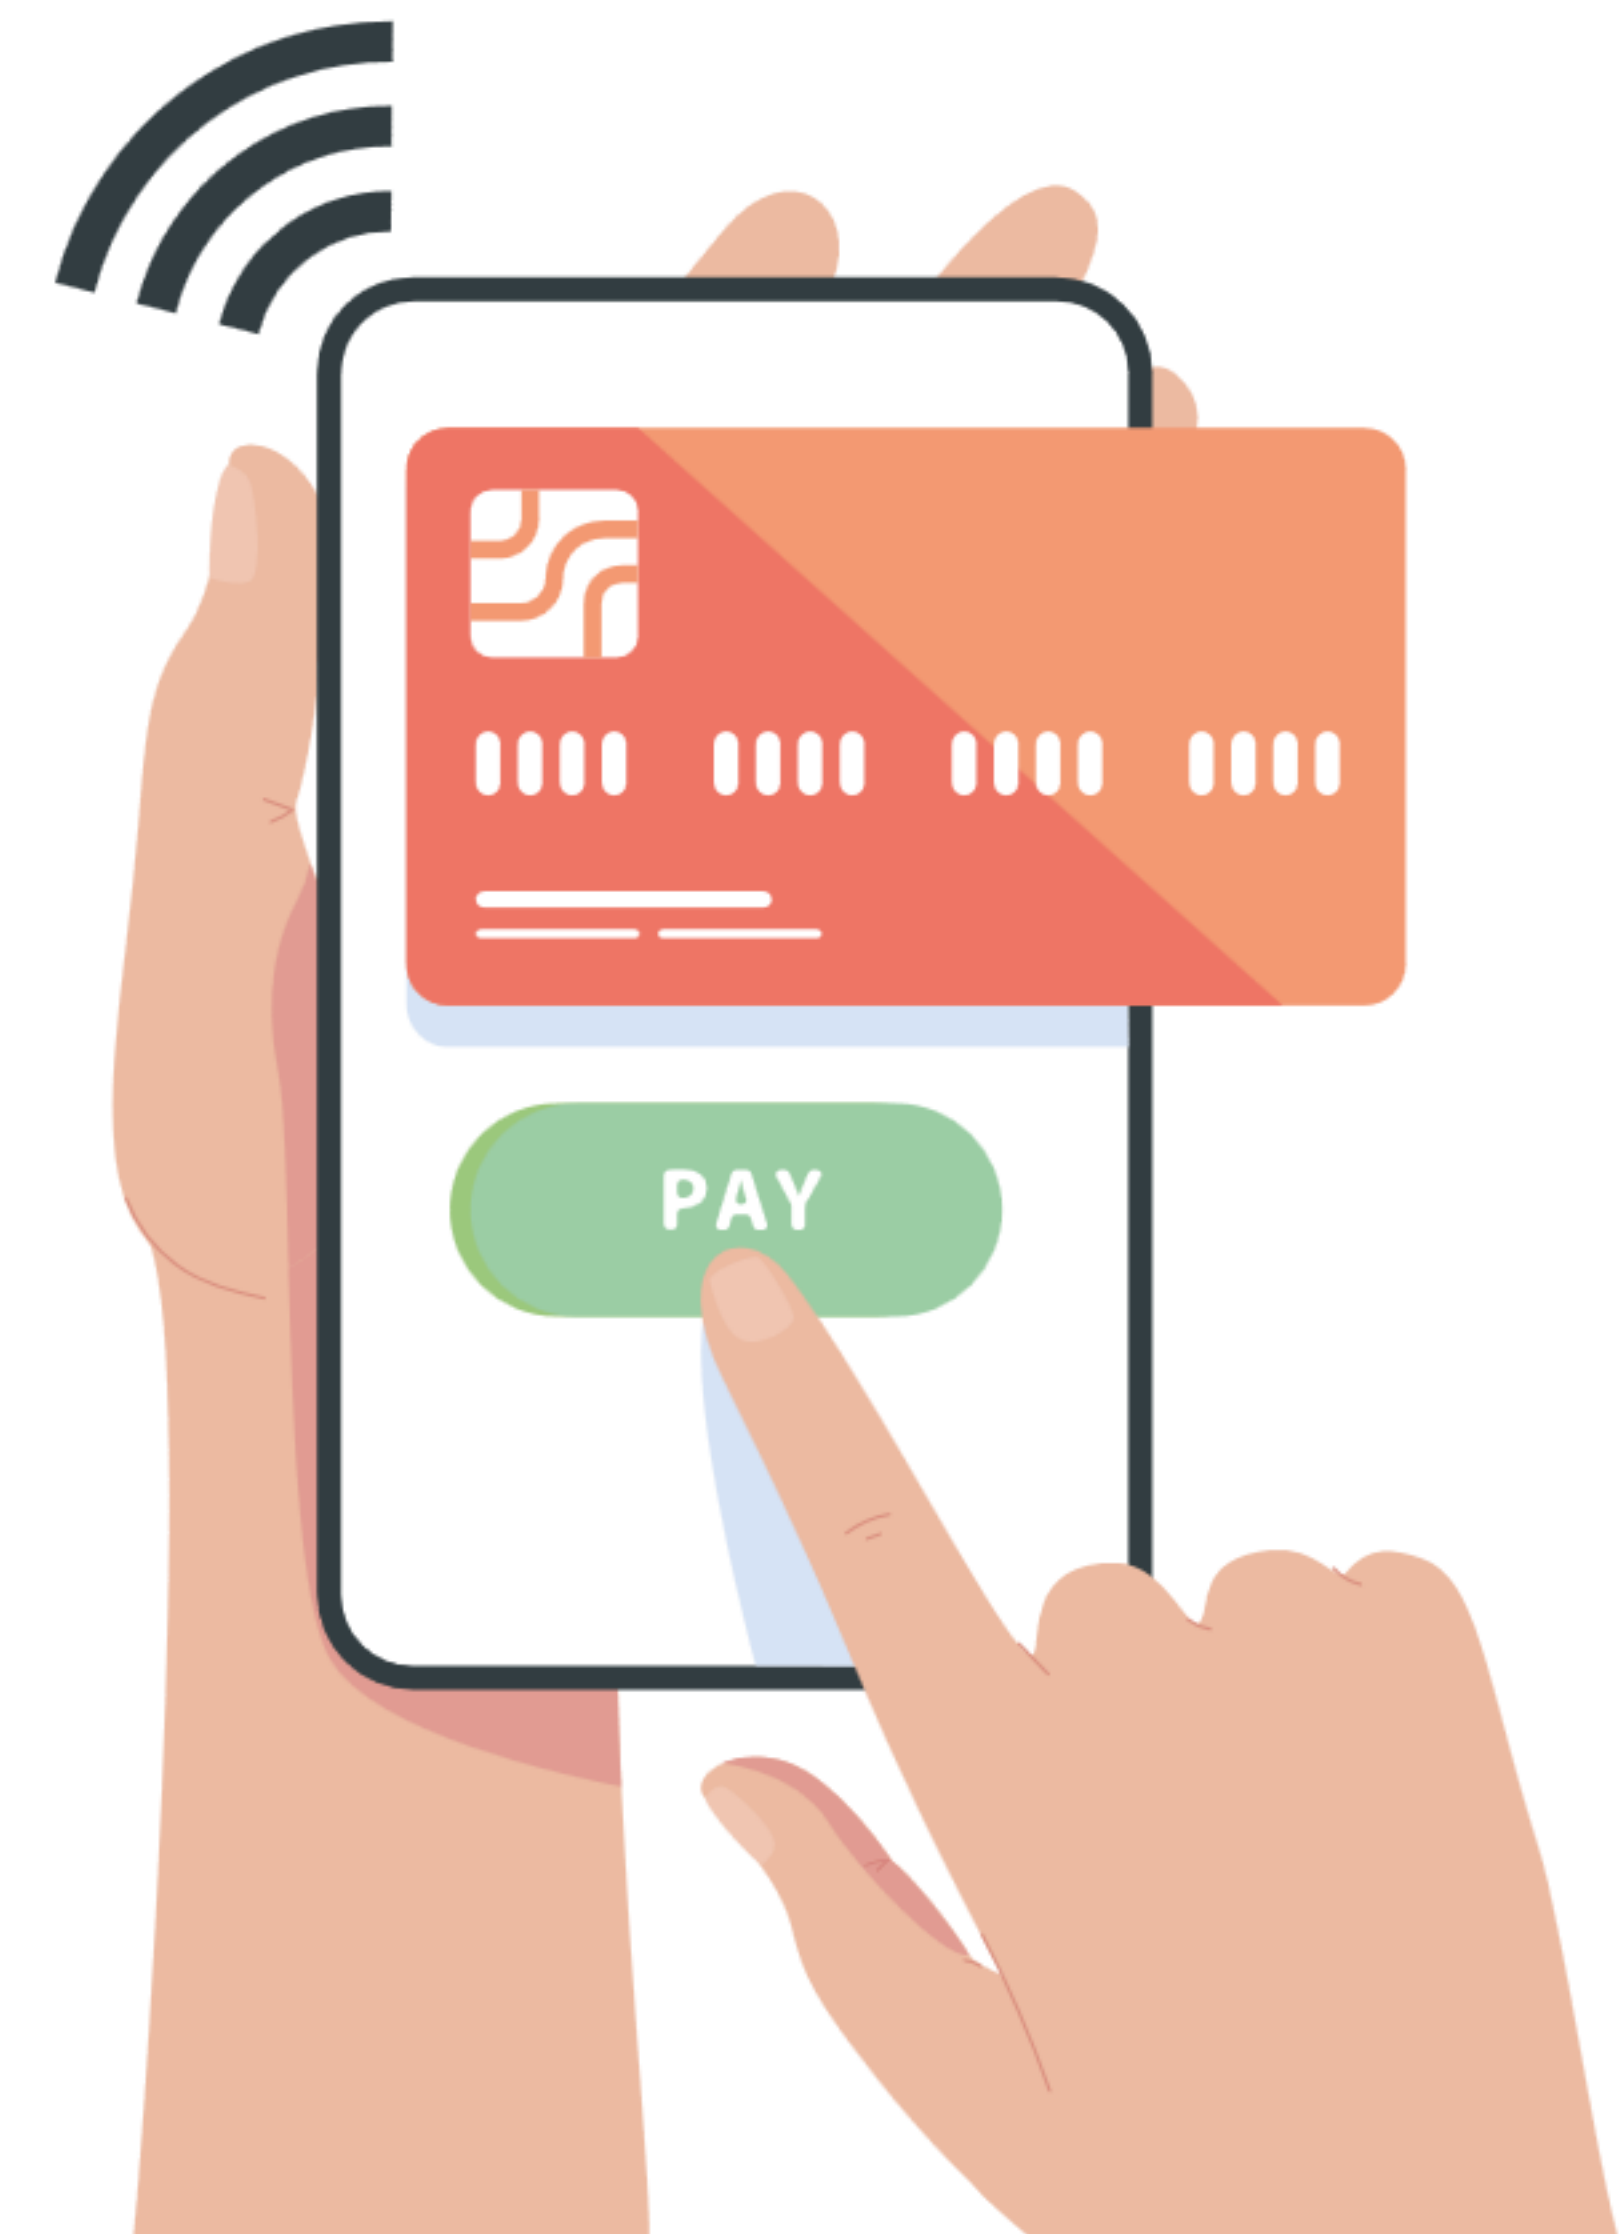

5.

Kitchen Optimisation

Train staff and adjust kitchen workflows to prioritise digital orders for efficiency.

4.

Payment Processing

Implement and regularly update secure payment gateways, ensuring compliance with financial regulations.

3.

Order Transmission

Integrate the kiosk system with kitchen operations using reliable POS (Point of Sale) software.
