➤ Myths Around Passion

Passionate doesn't mean that you should be obsessed with a particular business idea, industry, problem, or solution.

Expectation

In fact, passion simply means having a strong interest, love, and happiness in what you are doing.

Passion impacts your dedication to your work. It is normal to think of success and owning the business.

Reality

Over time, it can grow as you experience and gain new insights about the problem you are thinking of solving. You will gain a deeper understanding of your products.
