

# 11.2 From Startup to Stock Market: The Evolution of Zomato's Growth Strategy

## 1. How It Started?

Zomato was founded in 2008 by Deepinder Goyal and Pankaj Chaddah. It has reshaped the food industry by transforming how people discover, order, and enjoy food. Traditionally, ordering food was limited to calling restaurants or visiting them in person, which could be inconvenient and restricted the options available to consumers.

### Before Zomato

Calling or Visiting  
Restaurants in Person

### After Zomato

However, with the rise of online food delivery platforms like Zomato during the internet and the technological boom, the process of ordering food underwent a significant shift. These platforms provided users with a wide selection of restaurants and cuisines right at their fingertips, making them convenient and accessible.

Zomato's innovative platform and its technology-driven approach have revolutionised the food ecosystem, making it a household name in many countries around the world.
