

1. Building Block 1: Understanding Your Customer Profile

To build a successful business, start by viewing it from your customers' perspective. Begin filling out the VPC by identifying your target customer segment, defining their profile, and analyzing their needs and behaviors.

➤ Customer Jobs

It focuses on what are customers trying to do-

1. **Functional tasks** like practical activities or actions customers perform. A customer ordering groceries online to save time.
2. **Social tasks** are interacting and engaging with others. A person posting about their purchase on social media for validation.
3. **Emotional tasks** are feelings and emotions that customers seek to fulfill through their actions. A customer choosing a brand because it makes them feel secure.

What do they need to accomplish?

What are the problems they want to solve?

Customers aim to solve problems related to finances, security, convenience, and belonging. They look for solutions that simplify their lives while addressing these concerns.
